  - b. The Scout must build a new car for each season.
  - c. Only official BSA wheels and nails are permissible.
  - d. Wheel bearings, washers, bushings, springs, or any other item added to the wheels and axles are not permissible.
  - e. No changing of the wheel is permitted except the filing off of the mold projection on the wheel. No narrowing of the wheels.
  - f. Only powdered lubricants are permitted.
  - g. Width not to exceed 2 ¾".

  - j. No loose materials of any kind permitted in or taped on the car.
  - k. The car must be freewheeling with no starting device.
  - l. Only one car per participant.
  - m. In order to avoid the bottom of the car dragging, a minimum bottom clearance of 3/8" is needed. Also, the track has an electric finish line which limits the height of the cars to 4".
  - n. The wheelbase (distance between the front and rear axle slots) may not be modified. Entrants must use the pre-cut axle slots so that the distance between the axles is the same for all racers. The axle slots must be visible on the bottom of the racer.
  - o. All of the above applies to the Old Timers Race.
3. Each car must pass inspection by the official inspection team before it will be allowed to compete. The inspectors have the right to disqualify those cars which do not meet the specifications in rule 2.
